

# VULCASEAL<sup>®</sup>

## DC166

**VULCASEAL DC166 IS A BIODEGRADABLE GRAFFITI CLEANER FOR DELICATE SURFACES. VULCASEAL DC166 REMOVES MOST PAINTS CURRENTLY USED BY GRAFFITI ARTISTS/VANDALS.**

### PRODUCT DESCRIPTION

---

**Vulcaseal DC166** is formulated from raw materials of vegetable origin. The product is ideally suited for sustainable development programmes.

Ideal for removing graffiti from enclosed surfaces such as: road signs, vehicles, vending machines, paints and coatings in general.

**Vulcaseal DC166** removes graffiti without affecting the protection offered by Vulcaseal V201, if this has been applied to the surface.

**Vulcaseal DC166** is ideal for removing all types of graffiti on painted and non-porous surfaces such as metal or plastic.

### CHARACTERISTICS

---

**Biodegradable and VOC-free**

**Can be used on fragile surfaces including glass, metal, plexiglass, plastic and road signs**

### APPLICATION

---

We recommend wetting porous surfaces before application.

Vulcaseal DC166 is a mixture of materials of vegetable origin.

## DC166

**STEP 1**

Use the product neat, do not dilute.

Do not forget to shake the container before application.

**STEP 2**

Apply the product with either a low pressure washer.

**STEP 2**

Or with a paint roller.

**STEP 3**

Depending on the level of soiling, allow the product to act for between a few minutes to several hours.

**STEP 4**

Rinse the surface treated using either a cold water high pressure washer, or for extra effectiveness, use hot water.

**STEP 5**

Rinse once again.

**TOOLS REQUIRED**

Paint Roller

Paint Brush

Low Pressure Washer

**COVERAGE**

Coverage depends on the material's porosity. These figures are approximate and should be used as a guideline:

**1 Litre = 2 to 4m<sup>2</sup>.**

**STORAGE**

Lifespan: 12 months. Keep in a cool, dry place, away from extreme cold.

Do not store in condition below 5°C.
