Movement and Waterproof Matting

DURABASE
CI++ Matting

The Durabase CI++ matting is a multi-purpose solution designed to provide a one-step underlayment system for use within floor tiling. Thanks to its 3-layer construction, this matting system provides a variety of benefits, including decoupling, crack-bridging and optimised shearing force protection.

- Suitable for use on most substrates including timber floors and cracked concrete.
- Can be stuck down with a standard flexible tile adhesive
- Designed to cope with multi-directional lateral substrate movement.
- Only 3mm thick.

Stock Code.	Roll Width m	Roll Length m
QMP5	1	5
QMP30	1	30

DUKKABOARD
Deco Matting

This matting is a one-step underlayment system which can be used on the most common substrates, including timber floors and cracked concrete, although as it is a multi-purpose movement matting it is compatible with all floor tile types.

- Very durable, lightweight and easy to fit.
- Suitable for use on most substrates including timber floors and cracked concrete.
- Can be stuck down with standard flexible tile adhesive.
- It is manufactured using 70% recycled materials, meaning it is kinder to the environment than many alternative forms of movement mattings.
- Only 3mm thick.

Stock Code.	Roll Width m	Roll Length m
4983	1	5
4984	1	30

DUKKABOARD
Isomat Movement Matting

The Dukkaboard Isomat movement matting is an innovative crack bridging, decoupling membrane that will provide brilliant protection from problem substrates, including timber, concrete and heated floors. As a versatile matting solution, it is compatible with all types of tiles and natural stone, whilst being lightweight, ultrathin and very easy to install.

- A crack bridging, decoupling membrane.
- Suitable for use on most substrates including timber floors & concrete.
- Superior protection against problem substrates.
- Innovative design, rot proof and durable.
- Ultra thin, with a thickness of less than 1mm.

Stock Code.	Roll Width m	Roll Length m
4997	1	50

DUKKABOARD
Iso-Shield Movement Matting

- Innovative 3-ply waterproof membrane.
- Minimal height build-up of just 0.87mm.
- Superior protection from substrate movement.
- Suitable for use on most substrates including timber floors & concrete.
- Suitable for use with underfloor heating.
- Tested to BS / EN Standards.

Stock Code.	Roll Width m	Roll Length m
4972	1	30

Cement coated building board - Used for creating a waterproof surface suitable for fixing wall and floor tiles.

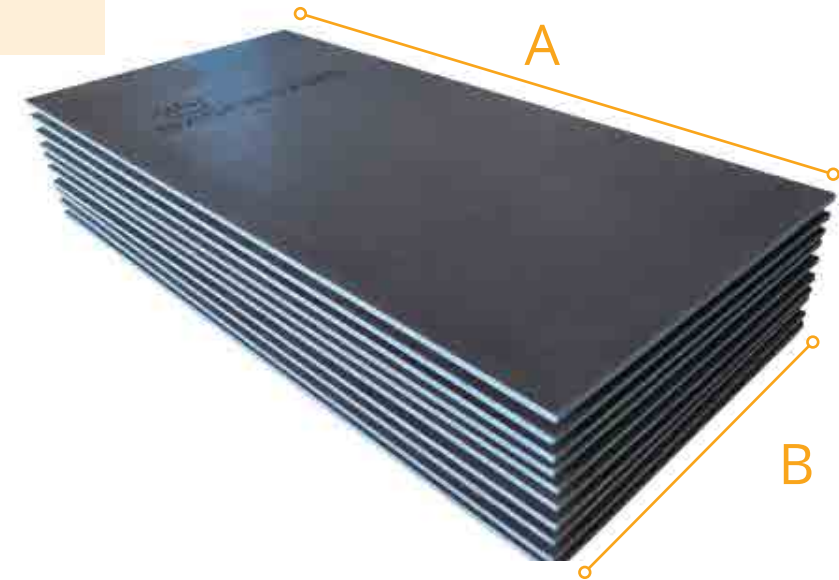

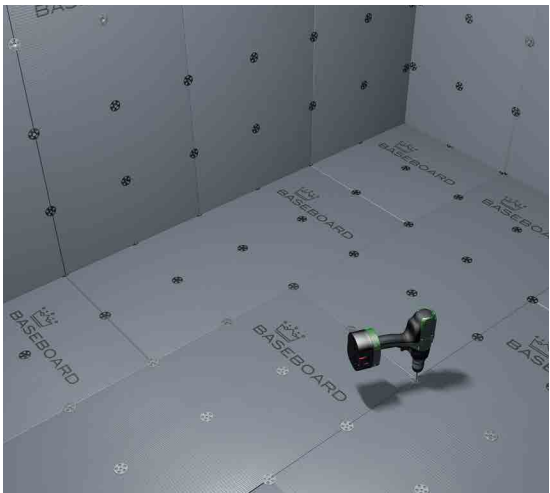

BASEBOARD

BASEBOARD
Panels

The Baseboard tile backer board systems are innovative boards which can be used to create a waterproof surface, that is suitable for use when fixing wall and floor tiles. The system is designed to be used instead of chipboard, ply or plasterboard, where it works to prevent water reaching the surface beneath the board.

These panels are cement coated and include a strengthened fibre glass mess, which ensures they are suitable for use on metal, timber stud work and existing walls and floors. The result will be a strengthened and stabilised level surface which is ready for tiling.

WATERPROOF
TOTALLY IMPERVIOUS TO MOISTURE, PROVIDING A STABLE AND READY TO TILE SUBSTRATE.

INSULATING
HIGH THERMAL INSULATION PROPERTIES ENSURING MINIMAL HEAT TRANSFER TO ADJACENT SURFACES.

LIGHTWEIGHT
NO EXTRA LOAD REQUIREMENTS. EASY TO HANDLE AND CUT.

VERSATILE
SUITABLE FOR USE ON TIMBER AND METAL STUDWORKS, CONCRETE AND TIMBER FLOORS.

UNDERFLOOR HEATING
SUITABLE FOR USE BENEATH UNDERFLOOR HEATING.

BASEBOARD
Shower Trays

The Baseboard shower tray range incorporates a wide variety of shapes and sizes, which makes it possible to create a level access walk-in shower area.

Each tray has a preformed fall to the drain location.

Coated with cement, and strengthened with fibreglass mesh, the Baseboard shower trays are ready for the application of tiles.

Compatible with electric underfloor heating.

Aquaboard Eco is a premium quality light-weight magnesium oxide board, which is ideal for over-boarding chipboard, concrete and stable timber floors.

A PERFECT SUBSTRATE FOR ALL TILE FINISHES

Aquaboard Eco

The Aquaboard Eco boards are a lightweight, incombustible and asbestos-free solution, which can be used to create a solid, stable and moisture resistant surface for fixing wall or floor tiles. The result is a strong and flat surface, which eliminates all problems associated with tiling onto plywood or gypsum.

These moisture resistant boards are able to withstand potential loose and cracked tiles due to wall or floor movement, whilst also preventing rotting timbers, swelling, degradation and mould. In addition, they are an ideal option for overlaying floors where wet underfloor heating is already fitted below the surface.

The fibre mesh boards are between 15-35% lighter than standard cement-based boards, whilst also being much stronger, making these an efficent choice for those looking for cost-effective and easy to install moisture resistant boards.

✓ **MOISTURE RESISTANT**
THE BOARDS CREATE A SOLID MOISTURE RESISTANT SEGREGATION SYSTEM

✓ **SIMPLE INSTALLATION**
BOARDS ARE EASY TO CUT AND INSTALL WITH NO SPECIALIST CUTTING TOOLS REQUIRED

✓ **LIGHTWEIGHT**
THESE MAGNESIUM OXIDE BOARDS ARE EASY TO HANDLE, INCOMBUSTABLE AND ASBESTOS FREE

✓ **UNDERFLOOR HEATING**
IDEAL FOR LAYING OVER TIMBER FLOORING WHERE UNDERFLOOR HEATING IS ALREADY IN PLACE

✓ **PREVENTS LOOSE AND CRACKED TILES**
CREATES A STABLE SURFACE TO PREVENT TILING ISSUES

Stock Code.	Length mm	Width mm	Thickness mm	Pallet Qty
AQBE126	1200	600	6	160
AQBE1212*	1200	600	12	80

AQUABOARD ECO

EASY TO CUT & FIX IN PLACE

The Aquaboard Eco is available with a variety of complementary products, which allow the boards to be stuck securely to a surface ready for tiling.

Simply score and cut the board to size, apply a small amount of the XL adhesive to the board and manoeuvre into place. Next, use the specially designed XL screws to fix the board in place. Finally, the adhesive can be used along any joints and board edges to create a single solid wall or floor area, which is ready for tiling.

AquaTank

AquaTank is a latex based, water resistant bonding agent and admixture, designed for use in areas which are subject to humidity, dampness and water contact.

4 EASY STEPS TO THE **ULTIMATE AQUATANK**

STEP 1
Ensure the application area is clean and dry. Apply AquaTank Pro-Tile Primer as instructed on the label.

STEP 2
Once the primer is dry, tape all corners and joints with AquaTank SA Tape+.

STEP 3
Pay particular attention to the corners and any panel joints.

STEP 4
Next, apply AquaTank Neo-Flex Membrane to the entire area, 30 minutes later apply a second coat

BENEFITS

✔ **WATERPROOF**
AN EXCELLENT RESISTANCE TO WATER AND WATER VAPOUR, WHICH IS ESPECIALLY USEFUL IN DAMP AND HUMID AREAS

✔ **RESISTANCE**
A HIGH LEVEL OF RESISTANCE TO FROST, SALT PERMEATION, SILAGE ACIDS AND MANY OTHER CHEMICALS

✔ **TOUGH AND FLEXIBLE**
IMPROVED TOUGHNESS, FLEXIBILITY, EXTENSIBILITY AND CRACKBRIDGING PROPERTIES

✔ **A COMPLETE KIT**
THE COMPLETE AQUATANK KIT INCLUDES EVERYTHING REQUIRED TO COMPLETELY WATERPROOF A SURFACE

✔ **EASY TO USE**
THE SYSTEM IS VERY EASY TO USE AND WILL BE DRY AND READY TO TILE ON AFTER JUST 2 HOURS

The Kit Contains:

1. AquaTank Neo-Flex Membrane
2. AquaTank Pro-Tile Primer
3. AquaTank SA Tape+
4. Paint brush
5. Gloves
6. Instructions and application

AquaTank Kit

The AquaTank kit is a complete waterproofing system, designed for the protection of substrates in wet areas, such as beneath ceramic, porcelain, natural stone and mosaic tiles. The kit comes with everything you need to completely waterproof an all 5 or 10m sq. wall or floor area ready for tiling. This superior product provides the convenience of an all in one solution with complete waterproof protection.

Complete kit contains: AquaTank Neo-Flex Membrane, AquaTank Pro-Tile Primer, AquaTank SA Tape+, Paint Brush, Gloves and Instruction/Application Guide.

Available in 5m or 10m kits.

Stock Code.	Size m
5570	5m
5571	10m

AquaTank Pro -Tile Primer Step 1

Professional grade, multi-purpose liquid latex.

For use as a water resistant primer, flexi-additive and bonding agent. Improves the water resistance, flexibility and long-term durability of renders, floor screeds, concrete and patching mortar.

Especially useful in areas subject to high humidity, dampness and continuous water contact. Always use when preparing wall and floor surfaces for tiling.

SBRP05L	500ml
SBR5L	5 Litres

AquaTank SA Tape+
Step 2 & 3

AquaTank SA Tape+ is a self-adhesive, flexible tape for use in conjunction with the AquaTank Neo-Flex Membrane. AquaTank SA Tape+ creates an effective waterproof layer in corners, connections between the floor and wall, joints between panels, pipes, balustrade junctions and bathroom outlets. At 750mm wide, the AquaTank SA Tape+ is easy to use and provides totally waterproof joints.

Stock Code.	Size m
DBSA5	5m
DBSA10	10m
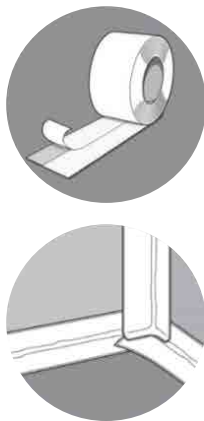

AquaTank Neo-Flex Membrane
Step 4

A flexible liquid tanking membrane for waterproofing substrates or joints between panels when used in conjunction with the AquaTank SA Tape+. Water based and eco-friendly, AquaTank will provide total water-resistance in areas such as bathrooms, showers and wet-rooms.

• Striking colour for indication of completeness of coverage.
• For internal use.
• Coverage: Approx 2m² /kg

| Stock Code.	Size kg
DBNF5	5kg
DBNF10	10kg
DBNF20	20kg

AquaTank
Kit Stand

The AquaTank Kit stand holds 3 tanking kits whilst providing customers with product information and application data.

Waterproof
Upstand Tape

• Double-sided fleece-coated, highly elastic sealing tape equipped with a self-adhesive butyl strip. The protection strip made of smooth NBR rubber under butyl prevents the capillary effect, whilst the fleece coating provides an excellent bond with all waterproofing materials used under tiles, such as polymer dispersions, mineral flexible sealing slurries and reaction resin seals.
• Creates an effective waterproof layer in corners, connections between the floor and wall, joins between panels, pipes, balustrade junctions and bathroom outlets.

LITHOFIN
FZ Conditioning Cleaner

- A mildly alkaline, wax-free cleaner, which is designed to be a regular use maintenance cleaner for both rough and polished surfaces.
- Provides surfaces with an attractive gleam and improves dirt resistance.
- Does not form layers and gives a high yield.

Stock Code.	Size	Coverage Approx	Box Qty
3692	1 litre	20m² / 10L	10

LITHOFIN
MN Builder's Clean

- Very powerful acid cleaner for removing cement film, encrusted dirt residues, blooms, rust and rust discolourations.
- Acts to prevent rust in hard stones which contain iron.
- Suitable for use on granite, gneiss, quartzite and other natural and artificial stones.
- Not suitable for polished marble or limestone.

Stock Code.	Size	Coverage Approx	Box Qty
3708	1 litre	30-50m² / L	10

LITHOFIN
Stain-Stop W

- A water based, solvent-free, invisible impregnator that protects stone surfaces against the penetration of oil, grease, dirt and water to prevent staining.
- Suitable for unglazed ceramic, terracotta and many types of natural/artificial stone - ideal for dense, hard granite.
- Facilitates easy maintenance, odourless and provides long term protection.

Stock Code.	Size	Coverage Approx	Box Qty
3718	1 litre	10-20m² / L	10
3719*	5 litre	10-20m² / L	2

LITHOFIN
MN Slate-Seal

- An effective sealer which forms a shiny protective layer and intensifies the colour structure of rough/honed natural stone, especially slate.
- Facilitates easy maintenance.
- For indoor use only, but not suitable for bathrooms or wet rooms.
- Can be applied in several coats.

Stock Code.	Size	Coverage Approx	Box Qty
3726	1 litre	10-20m² / L	10
3728*	5 litre	10-20m² / L	2

Quantum

LITHOFIN MN Colour Intensifier

- Very effective solvent containing products that invigorate the colours, accentuate the structure, and altogether improve the appearance of natural and artificial stone surfaces, such as marble and travertine.
- Ready to use, suitable for indoor/outdoor use and can be applied in several coats.

Stock Code.	Size	Coverage Approx	Box Qty
3720	1 litre	7-15m² / L	10

LITHOFIN Easy-Care

- A regular-use maintenance cleaner that beautifies and protects the seal of stone surfaces.
- Keeps surfaces hygienically clean and improves the colour structure of the stone.
- Does not form layers, solvent free and non-bleaching.

Stock Code.	Size	Coverage Approx	Box Qty
3628	1 litre	20m² / 10L	10

LITHOFIN MN Care-Seal

- A water based product which creates a shiny protective film and strengthens colour and gloss, designed to renew worn out areas of seal on rough/honed natural stone floors.
- For initial treatment of new rough surfaced yorkstone and sandstone slabs.
- Contains no solvents and for indoor use only.

Stock Code.	Size	Coverage Approx	Box Qty
3732	1 litre	20m² / L	10

LITHOFIN MN Care-Sheen

- An occasional-use solvent-free sheen restorer for polished marble and other stone floors.
- Forms a fine surface film and is the ideal additional care for all shiny floor surfaces.
- Contains wax, suitable for indoor use only.

Stock Code.	Size	Coverage Approx	Box Qty
3738	1 litre	20m² / L	10

VULCASEAL

HG

A range of innovative products for sealing natural stone, tiles, flooring & grout.

VULCASEAL Grout Protector

Vulcaseal Grout Protector is a VOC compliant, solvent based formula that penetrates into absorbent wall and floor grout joints, providing an effective protection from water and staining for up to 20 years.

- Seals all pores and capillaries in grout with an invisible film that prevents dirt from attaching onto the surface
- Easy spray on application
- Fast drying, giving instant protection
- Suitable for all types of grout joints

Stock Code.	Size	Coverage Approx	Box Qty
2737	500 ml	15m²	6

HG Impregnating Protector

Impregnating sealer which helps to prevent stains on unpolished, unglazed porous tiles and flagstones.

- Contains no silicones and can be applied both indoors and outdoors
- Product number 13
- Coverage approx 8-10m²/L

Stock Code.	Size	Coverage Approx	Box Qty
3412	1 litre	8-10m² / L	6

HG Mould Spray

Effectively removes all brown stains caused by mould, fungus and algae.

- Can be used on silicone rubber seals, plaster, tiles and grout

LEV TEC™ SYSTEMS

LEVTEC
THERE IS NO SIMPLER WAY TO ENSURE PERFECT TILING

The range includes clips, wedges and pliers which lock tiles in place to prevent slumping during drying, while also removing substrate imperfections. Their interlocking design holds the tiles together, while eliminating the effects of adhesive shrinkage and gravity issues. This unique system will enable professional tilers to set floor and wall tiles without lippage, until the adhesive is fully dry.

The clips are simple and quick to use thanks to their beveled clip edges, with a strong and flexible design which does not suffer from accidental breakages. Unlike other clip and wedge-based levelling systems, the breakpoint is below the base plate, allowing total expansion once removed. In addition, the reinforced reusable wedges are designed to provide complete accuracy, so every tiling project benefits from a faultless surface.

Standard clip designed for tiles with a thickness between 3 and 12mm - 1.5mm tile spacer. A tall clip is also available for tile thicknesses between 12 and 20mm.

HOW TO CREATE A
PERFECT FINISH

Step 1
Spread the tile adhesive and lay the tile, then position the LevTec clips beneath the edge of the tile. The clip will act as 1.5mm spacer when pressed firmly against the tile.

Step 2
Set the adjacent tile firmly into the adhesive, and butt against the LevTec clip. Then slide the LevTec wedge through the clip until both tiles are firmly levelled.

Step 3
Once the tiles are locked in place, the clips and wedges need to stay in position until the adhesive sets. The joint width can be adjusted slightly during setting, without disrupting the height of the tiles.

Step 4
Once the adhesive is set, the wedges can be removed using a rubber mallet. The clips should be hit in the direction of the tile joint, where they will dislodge from the breakpoint below the tile, ready for grouting.

LEVTEC
Levelling System Kit

• A complete levelling system floor kit.

Stock Code.	Description
LTSK	Levelling System Floor Kit includes 100 Clips, 100 Wedges and 1 pair of Floor Pliers.

MONTOLIT
Masterpiuma Power 5

The Masterpiuma Power 5 range is the lightest among professional tile cutters, and it can cut all types of tile, with thicknesses of 0-22m, quickly and accurately.

Multifunction, power and precision are the main features of this innovative tile cutter which is engineered for easy cutting of all types of ceramic, porcelain & glass tiles, including glass mosaic.

• Features a structured modular frame manufactured using light aluminium, which is supported by reinforcement brackets and ribs.

• A multifunctional gonimetrical square features an oversized design, so that it can easily rotate to both the left and right at a 45-degree angle.

• There are many excellent features which indicate the improved strength of the new Masterpiuma P5 range. including a tungsten carbide engraving wheel, a double trestle splitting system, integrated lubricant and accurate incision handle.

• Depending on the cutter size, the new P5 machines feature either an expanded support surface or robust die-cast aluminium wings which are integrated perfectly into the strong frame. This provides improved support to diagonal cuts on large format tiles, without having to leave the profile of the machine.

MONTOLIT Mosakit Mosaic Mat

The Montolit Mosakit Pad is a specially designed rubber mat that upgrades your manual tile cutter into one that cuts mosaic tiles too. Produces perfect results even on the most fragile and most expensive lightweight glass mosaic.

- Pad dimensions: 11-3/4" x 13-3/4", which is easily attached to the tile cutter.
- For use on up to 14" mosaic tiles.
- Printed lines on the pad make 45-degree cuts easy.
- Exceptional cushioning during scribing & splitting action.
- Works with porcelain, ceramic, glass & mixed mosaic tiles.
- Use in combination with Masterpiuma tile cutters when cutting mosaic tiles.

Stock Code.	Size cm

Adhesives, Grouts & Sealants

Adhesives, Grouts & Sealants

PYTHON
ADHESIVES

A premium range of tiling adhesives and grouts

Python SL Levelling Compound
Low Flex

Python SL is a fast setting, protein free, cement based levelling compound used to level out rough and uneven floors and screed in preparation for laying floor coverings. Python SL can be applied up to 12mm in one coat and up to 25mm

when mixed with additional aggregate.
• Fast setting, it will accept light foot traffic after 4 hours.
• Ceramic tiles can be applied after 8 hours.
• Simply mix with water.

Stock Code.	Size	Colour	Pallet Qty
2621	25KG	Grey	40

Python LR Levelling Compound
High Flex

Python LR is a free flowing, fast setting, fibre reinforced, protein free, shrinkage compensated cement based formulation, designed for smoothing and levelling sub-floors prior to the installation of floor coverings.
• Apply from featheredge to 50mm in

one pour.
• Single part, no additives required.
• Ideal for underfloor heating and plywood.
• Light foot traffic after 3 hours.
• Thick reinforcement - Not suitable for spiked rollers.

Stock Code.	Size	Colour	Pallet Qty
2620	25KG	White	40

Python CS Tile Grout
High Flex

A highly versatile wall and floor grout specially formulated to give a smooth, creamy, controlled workability. Python CS has been developed for use on surfaces subject to limited movement and/or vibration such as plywood overlay and plasterboard. For grouting joints between 2-15mm.
• Ideal in showers, wet rooms & areas subject to prolonged wet conditions.
• Unaffected by frost, suitable for interior and exterior use.
• Class CG2.

Stock Code.	Size	Colour
2650	3 KG	White
2651	3 KG	Jasmine
2654	3 KG	Light Grey
2656	3 KG	Mid Grey

Python RS Tile Adhesive
Flexible - Rapid Set

A polymer modified, flexible, cement based floor and wall tile adhesive. Python RS has been developed for fixing a large variety of tiles to surfaces subject to limited movement and/or vibration.

• Flexible, rapid setting formula, ideal for plywood overlay.
• Suitable for natural stones, porcelain and underfloor heating.
• Essential for areas of movement.
• Class C2FT S1.

Modular system for the handling of slabs.

Stock Code.	Description	Weight kg
ART. 300-70	Superstick - Full Kit. Max Load 80kg	32kg*
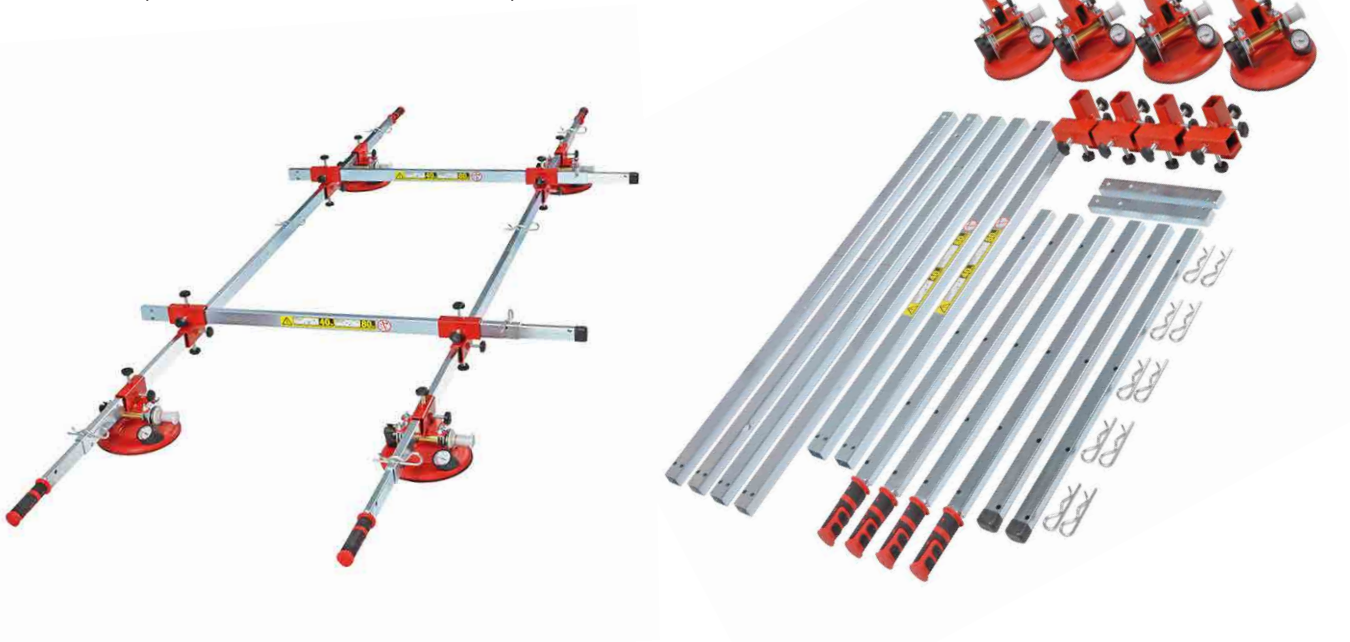

MONTOLIT
Table-One

Montolit has created this work bench for large tiles based on daily contact with both tile setters and porcelain slabs manufacturers.

The cross bars, with anti-scratch rubber inside can be easily moved sideways and/or slide back and forth as needed. Also the height of the worktop is adjustable in three positions to adapt to the height of the installer and operations needs.

Stock Code.	Description	Weight kg
ART. 300-20	115x180 cm	38kg

BREVETTI MONTOLIT®
SINCE 1946

MONTOLIT
Battile

Thumping suction cup for tiles and slabs suitable for; ceramics, porcelain stoneware, granite, marble and glass.

Powered with lithium ion-battery, the BATTILE is a compact and light-weight item that is projected to remove by vibration any air bubbles from the glued tiles right after they have been installed. In addition, its suction cup is able to lift up and easily lay small and medium tiles.

If you are facing big slabs, the BATTILE is essential to ensure perfect glue adherence, and to avoid annoying and dangerous "voids" that could cause breakage in the immediate future.

The intensity of vibrations is adjustable from 5000 to 18000 vibrations per minute, using the power regulator located near the handle.

Stock Code.	Voltage V	Weight kg
BATTILE-GB	8.4	0.95

MONTOLIT
Battile Pro

Thumping suction cup for tiles and slabs suitable for; ceramics, porcelain stoneware, granite, marble and glass.

Powered by a 16 V lithium ion battery, the BATTILE PRO can be used for indoor and outdoor installation. It replaces the traditional manual operation and helps to avoid problems due to the incorrect distribution of the adhesive under tiles and big slabs.

It is very compact and light, and also allows the positioning of the tile through the suction cup (possible to lift up to 25 kg). In addition, thanks to the vibration it removes residual air bubbles that, if trapped between the adhesive and the tile, could cause potential breakages. The intensity of the vibration is adjustable to three different frequencies.

Stock Code.	Voltage V	Weight kg
BATTILE-PRO	16	1.35

INTRODUCING NAVARRO TILES

An extensive range of high-quality ceramic and porcelain tiles, hand-picked to provide our trade customers with an industry leading selection of wall and floor tiles.
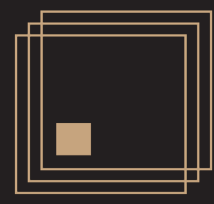

NAVARRO TILES

ENDLESS LUXURY

Here at Quantum, we are always looking for new ways to meet the changing and developing requirements of our customers. This is why we are pleased to introduce our new range of tiles, which are available throughout the UK and Ireland.

The range is provided by Navarro Tiles, a supplier of luxurious ceramic and porcelain tiles. Founded in 2020, the team behind Navarro Tiles has many years of industry experience and a passion for sourcing unique tiles with a natural finish. As a result, our Navarro range is quickly becoming a source of inspiration for stockists across the UK and Ireland.

As an experienced team of industry professionals, we are ideally positioned to offer the full range of tiles from Navarro, which are perfect for all types of projects. We are pleased to offer tiles from some of the best manufacturers in Europe, which enables us to provide our customers with cutting edge designs at great prices.

Our customers are important to us – we strive to offer the best products available combined with expert advice and we are extremely proud of the range we offer.

We are committed to helping your business succeed, which means alongside our innovative tile ranges we also provide extensive marketing support. Whether you are looking for a modern point of sale display solution or tile samples to provide customers, our team will ensure you have everything you need to showcase our range.

If there is specific marketing support that your business requires, please let our team know and we will always do our best to accommodate your requests.

Our range of tiles is available on a trade only basis throughout the UK and Ireland. For more information about our wholesale tiling solutions, please contact the Quantum team.
